Dear Mr. Whitlock,

*Re: Operations Management Plan – Dunbar Apartments*

Please find attached the final report from the consultant, Raymond Penner, and the final Operations Management Plan and Community Advisory Committee Terms of Reference. The document from Mr. Penner summarizes the content of the comments received from the participants from the Dunbar neighbourhood during the series of meetings held from early September to November 20<sup>th</sup>.

Coast found this process to be productive and helpful in both developing a constructive relationship with interested parties from neighbourhood and identifying and seeking reasonable solutions to concerns.

Please advise if you need any further information from Coast on this issue.

Sincerely,

**Coast Mental Health**
