

March 25, 2020

Good morning neighbours.

The DRA is looking for your assistance.

During this period of Covid-19 our forays out of the house must be very limited. The status quo is changing hourly so please keep current with the news of the day before you go out to replenish your supplies. We know that a number of civic services and businesses are closed. With this in mind, we thought it would be useful to know what services are available nearby. This way we can help the local businesses who are open as essential services. Restaurants are now only allowed to remain open if they provide take-out food but the community needs to know the details if we are to call them to place an order.

If you know about any open businesses we can share with the neighbourhood please send the information to info@dunbar-vancouver.org

The following would be useful:

Name and type of business, address, phone, business hours, delivery/pick up options.

Please note that these businesses may have special procedures in place to safely do business with you.

We will post the information on the DRA website dunbar-vancouver.org for all to use.

Remember to keep two metres from everyone when you are out. It is especially important that the staff of these essential businesses remain healthy. Some of the professional staff is in very short supply and if any of these key people were to get Covid-19 the business could be seriously compromised and might have to close.

We look forward to your contributions to the Dunbar essential-services list.

Visit the website in the next day or two to see the posted information that will help you in meeting your needs through local businesses.

Thanks for your help.

Bruce Gilmour

President

Dunbar Residents' Association
